## BIO-CLEAN

### ALL PURPOSE ODOR CONTROLLER AND CLEANER

The  
Natural  
Way

#### Description

**BIO-CLEAN** is a bio-chemical formulation consisting of a synergistic blend of several selected *Bacillus* microorganisms. This blend of bio-strains provides excellent breakdown of organic waste materials. It is further enhanced with special biodegradable surfactants, and perfumes to safely and naturally produce instant odor control, quick cleaning action and effective organic removal.

#### Benefits

- Quick cleaning action
- Eliminates organic fouling at the source
- Non-acid, non-corrosive, non-toxic
- Safe to handle and store

#### Optimum Conditions for Use

Bacteria in **BIO-CLEAN** performs within a pH range of 6.0 to 9.0 with the optimum pH near 7.0. Temperature affects the activity of the working solution and action increases with rising temperatures up to 140<sup>0</sup> F. Diminished activity can be expected below 40<sup>0</sup>F.

#### Storage and Handling

Storage.....Store in a cool, dry place. Do not freeze

Handling.....Avoid excessive inhalation.

Wash hands with warm, soapy water after handling.
